А. С. Пушкин. Болдинские рукописи 1830 года: В 3 т. / Институт русской литературы (Пушкинский Дом) РАН; А 11 Авторы-сост. Т. И. Краснобородько, С. Б. Федотова; Вступ. ст. С. А. Фомичев; Пер. вступ. ст. Д. Хикс. — СПб.: Альфарет, 2013. — Т. 3. — Факсимильное воспроизведение рукописей. — 344 с.: ил.

Факсимильное издание «А. С. Пушкин. Болдинские рукописи 1830 года» продолжает публикацию рукописей поэта, хранящихся в Институте русской литературы (Пушкинском Доме) РАН. К 200-летию со дня рождения поэта Пушкинский Дом совместно с Форумом лидеров бизнеса под эгидой принца Уэльского опубликовал полное собрание пушкинских рабочих тетрадей (в 8 томах). В настоящем издании впервые в полном объеме воспроизводятся автографы, собрание которых воссоздает картину «трудов и дней» Пушкина в течение трех осенних месяцев 1830 г., ставших для него временем невероятного напряжения и взлета.

Это «стенограмма» творческого процесса поэта, представленная черновыми и беловыми рукописями последних глав «Евгения Онегина», «маленьких трагедий», «Повестей Белкина», «Домика в Коломне», «Истории села Горюхина», «Сказки о попе и о работнике его Балде», набросков критических и полемических статей, лирических шедевров, среди которых — «Бесы», «Безумных лет угасшее веселье ... », «Прощание», «Заклинание», «Дорожные жалобы», «Стихи, сочиненные ночью во время бессонницы», «Герой», «Ответ анониму», «Моя родословная» и др. В издание включены также автографы 17 пушкинских писем, отправленных из Болдина осенью 1830 г.

Первый том издания содержит вступительную статью о творчестве поэта первой Болдинской осени и научное описание болдинских рукописей. Во втором и третьем томах воспроизведены 640 страниц болдинских автографов 1830 г.
